

# SHREDHEADS

MOBILE DOCUMENT DESTRUCTION SERVICE

*If you planned to do some spring cleaning...well spring just ended!*

*Good News though, we are not taking a vacation. Call us today and we can clean out that back room!*

## USA LAW COMPLIANT

The law states that you have to make every effort to destroy the personal information of the people you do business with. Shredding is proof of your effort.

## SHREDHEADS RECYCLES EVERYTHING

Did you know 100 lbs of paper is equal to one tree? Believe what you will about global warming, but trees are important, and 100% of our shredded paper goes from our truck straight to the recycler. We recommend letting us shred all of your paper, not just the paper with sensitive information on it.

We all need to do our part, and make it a habit to shred and recycle everything!

## IDENTITY THEFT

Everyone is concerned about the safety of his or her identity. Show your customers that you care about protecting their private information. Display one of our receptacles in your business.

## DUMPSTER DIVING

Thieves know right where to go to find information. Not only personal info but customer, design, sales, and financial info. And what you shred in the office shredder and put in the dumpster acts as a bullseye.

When you use ShredHeads, we destroy documents on sight. They are mixed with thousands of pounds of shredding already in the truck, and then taken to the recycler.

**ON-SITE, IN-SIGHT; NEVER A QUESTION!**

## How many laws are there?

The list includes HIPPA, which protects private medical information, plus BLBA, The Privacy Act, Economic Espionage Act, Trade Secrets Protection, I.D. Theft Laws, Implied Contract Breach, and you can be sure more will follow.

Regardless of your line of business, you need to protect yourself from lawsuits accusing you of letting proprietary information fall into the hands of the wrong people. This is serious business, and ShredHeads can help.

Our commitment to ONLY shred on site guarantees your ultimate protection and the assurance that your documents are destroyed before they leave your property.

### Use one of our receptacles!

*" Set it and forget it!"*

Did you know that for as little as \$100 per year, you are able to not only shred all of your documents, but also be able to say that you recycle all of your discarded paper?

**ASK SHREDHEADS HOW!**

One of our services is sure to be right for you:

- 1) Periodic clean out service;
- 2) On call service;
- 3) Regularly scheduled service.

There is no cost until we shred. We place locked receptacles at your place of business for free, and you call us when they are full. They can be placed in sight to show customers that you care about their privacy, or out of sight in a back room.

ShredHeads is a Pennsylvania based, woman owned business, registered with CCR, and a member of the Chamber of Commerce. We are dedicated to protecting the private information of others, and we recycle 100% of everything we shred, ON-SITE and IN-SIGHT!
