

SHREDHEADS

MOBILE DOCUMENT DESTRUCTION SERVICES

WHAT SHOULD YOU SAVE AND WHAT SHOULD YOU DESTROY?

ShredHeads can instantly find you more room in the office/warehouse, help control your document flow, and reduce your risk of letting sensitive information fall into the wrong hands!

Choose any of these locked containers. We will deliver it to your office or business, and place it where you want it.

The containers are free to our customers. You can schedule a regular pick up or choose our on call service. We will come and shred the contents **on site and in sight** so there is **never a question!**

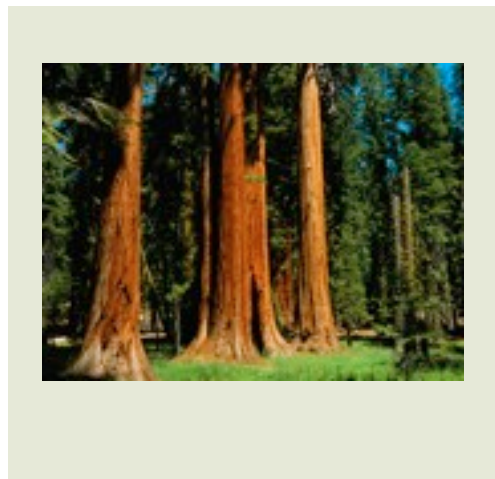

Consistent prices to control your costs! Consistent policy for document handling! Consistent protection for employees and customers!

Shredding is smart

Outsourcing your shredding is more secure than doing it "in house," and it is less expensive too!

Shredding in house can unintentionally tell dishonest people what is important, thus what to target. This is one of the reasons shredding *everything* is the right business policy to have, and we can show you the most efficient way to do it.

Shredheads makes it our business to shred, destroy and recycle your documents. Papers tend to pile up on the desk or in the recycle bin under the desk until there is too much to run through the office shredder. We can handle that responsibility so your employees can concentrate on the jobs they were hired to do.

**Use one of our receptacles!
" Set it and forget it!"**

Even if you have a shredder in the office and it seems like you are keeping up with the current work, you may not be aware of everyone who handles the documents. It is possible that the person authorized to look at the documents is not the one shredding them.. It is important to make sure only the proper professionals handle proprietary information. Locking

in one of the above secure containers keeps you in control.

We can provide specific facts for your company's records:

- 1) how the sensitive material was destroyed;
- 2) when it was destroyed;
- 3) where it was destroyed;
- 4) who destroyed it; and
- 5) the chain of custody in the handling of the material.

ShredHeads is a Pennsylvania based, woman owned business, registered with CCR, and a member of the Chamber of Commerce. We are dedicated to protecting the private information of others, and we recycle 100% of everything we shred. VISIT OUR WEBSITE TODAY
